

# READY-TO-COPY PROMPT TEXT

A realistic before-and-after bathroom renovation presented in horizontal split-screen format (16:9).

BEFORE on the left: raw unfinished concrete walls, exposed plumbing pipes, construction debris and dust.

AFTER on the right: clean modern Scandinavian style with white subway tiles on walls, hexagonal wooden floor, light oak vanity unit, matte black faucets and fixtures. Exact same bathroom layout, identical camera angle, perspective and framing, soft natural daylight from a window, ultra-realistic photography style, high detail.
